**LUMBER IN DEMAND.**

Large Contracts for Eastern Oregon Product.  
As was stated a few days ago, says the Baker City Democrat, the lumber manufacturing concerns of Baker City closed a contract with a large firm in Milwaukee, Wisconsin, for something over two million feet of what is known as "shop" lumber. Each of the plants in Baker City furnished its quota of the contract. Yesterday the Shockey-McMurren Co. finished shipping its share of 150,000 feet.  
This shop lumber is a high-grade product used in the East for the manufacture of sash and doors. It is worth here in Baker City about \$20 per 1000, and the freight charges from here to Milwaukee are almost another \$12 a 1000.  
It is understood that the mills of Baker City practically contracted their entire output of shop lumber for next season to this Milwaukee concern, or about 2,000,000 feet at a fair price.  
While the Sound lumber mills are partially closed down and coast shingles are at a discount, Eastern Oregon pine is bringing a premium, and will probably continue to do so for some time to come.  
As it is in Klickitat.  
The County Horticultural Society will meet at Goldendale, Saturday, January 7, for the purpose of electing officers for the ensuing year. The Horticultural and Agricultural Fair Association will hold a meeting the same day.—Goldendale Sentinel.
